

EVERY STORY IS UNIQUE

Aquavit or not? SWEET, BITTER, SOUR, SPICY, AND RAW SMOOTHNESS

For distillation, we use the original Aquavit Barley. We then add the unique and complex ISFJORD recipe of herbs and botanicals, a carefully chosen list of ingredients. For the sweetness, Bourbon vanilla, cane sugar, honey and malt extract. For a touch of bitterness, we add elderflower, orange, rose hips and rowan. Last but not less important, licorice root, bark from oak and linden trees for the bitter and sour taste. And finally, for the smoothness and the special touch of ISFJORD products, we add the unique Iceberg water.

ISFJORD Premium Arctic Malt Aquavit is an explosion of scents and flavors. With the right combination of sweet, bitter and spicy, all combined with the smoothness of the unique water from the Ice Cap, it's a fantastic alternative or choice for the Nordic food table. It matches the cheese & fruit table perfectly and will be an asset to any Tapas Table.

ISFJORD Premium Arctic Malt Aquavit - 50 cl. - 40% alc./vol.
